

## PHYSICIAN ASSISTANT PROGRAM

## Preceptor Evaluation of Student Performance

## **General Surgery Rotation**

Please give the student one of the following ratings for each item on this survey. Any response of 1 or 2 requires a comment to help faculty understand the nature of the deficiencies.

Item Score	Grade	Qualities Associated with Item Score
5	100%	Performs at the level of a new graduate PA: The PA student, in a non-educational setting, would be able to elicit an appropriate Hx; complete an appropriate PE; order appropriate diagnostic testing, read, review, and appropriately interpret the study results; and create an appropriate assessment and plan based on their findings with full autonomy. The student is fully aware of their limitations and knows when and how to obtain appropriate collaboration.
4	90%	<b>Performs at the level of an above-average clinical year PA student:</b> The PA student is able to complete the tasks of a PA with a <u>minimal amount</u> of collaboration and direction from their preceptor. The student is fully aware of their limitations and <u>regularly seeks</u> critique and feedback.
3	80%	<b>Performs at a level acceptable for a clinical year PA student:</b> The PA student is able to complete the tasks of an experienced PA with a <u>moderate amount</u> of collaboration and direction from their preceptor, appropriate for this phase of their training. The student is aware of their limitations and <u>responds appropriately</u> to critique and direction when offered.
2	70%	<b>Performs below the level of a typical clinical year PA student:</b> The PA student <u>struggles to complete tasks correctly</u> after receiving frequent and regular guidance and direction. The student is aware of their limitations, but <u>does not consistently seek or show the ability to improve</u> through preceptor critique and direction.
1	0%	<b>Performs in a manner that would jeopardize patient safety:</b> The student <u>demonstrates dangerous clinical skills or decision-making</u> that, if not corrected, would have directly caused harm to the patient. The student is unaware of their limitations and does not seek critique and direction.

Knowledge	1	2	3	4	5
1. Demonstrates acquisition of medical know	owledge				
necessary to provide pre-operative, intra	a-operative,				
and post-operative care

Demonstrated an ability to work collaboratively with others 14. Demonstrated effective leadership skills 15. Interacted with patients in a culturally competent					

Did the student discuss their minimum experience requirements with you during the rotations?

Yes No

Please provide a short summary of the student's strengths on this rotation.

Please provide a short summary of areas of needed improvement for this student.

Was this evaluation discussed with the student?

Yes No

This evaluation was based on (Select all that apply):

Occasional encounters with the student

\_\_\_\_Regular interaction with the student

\_\_\_\_Feedback from other preceptors

Any additional comments:

Date of evaluation:\_\_\_\_\_
